

# LEVELON ERP

A Complete Point of Sale Solution With  
CRM, Accounts, HRM and Stock Manager

**Levelon ERP** is a beautifully crafted Point of Sale application. The application is packed with a ton of features like Point of Sale, Invoicing, Quotations, Purchase Orders, Inventory Management, Customer Management, Supplier management, Project Management, Accounts, Data & Reports, REST API, CRON JOBS, Employee Management with distinct user roles.

It has options for all types of tax, like Exclusive, Inclusive and GST. We develop products for long life, not just the fancy features to temporary show off. In the future updates, we will try to include some AI (artificial intelligence) modules, the research is ongoing.

\* This system can be customized  
based on your own company
