

LEVELON POS

Levelon POS with all module (Shop & POS) is a PHP/jQuery based web application that allows you to manage your sales and inventory on site.

Shop Module brings the Levelon POS to next level by allowing you to easily sell your products online from your website, accept PayPal & Skrill payments. This module would help your customer to manager their sales, quotes and payments.

POS (Point of Sale) Module would help your staff to easily sell your products and accept credit card payments. Easily access pos from your device with internet connection and this module is touch screen friendly.

Update your stock information, make purchases and view sales data from anywhere whether in the office, at home, in the warehouse, or on the go. All you need to access this a device with internet connection.

Levelon POS has built-in Invoice and Inventory System.

Invoice System has Tax and Discounts. These will be really helpful to apply taxes and discounts automatically and the ability to generate invoice from quotation.

Responsive Theme with 3 styles, Calender to add events and daily/month sales and tax amounts. Advance and Improved reports for Overview, Stock Value per warehouse, custom sales and purchase reports.

Now you can manage multiple warehouses with Levelon POS.

Re-designed the POS Module for better Performance, User Interface and Usability.

*** This system can be customized based on your own company**
